Fiscal Year End 3/31/2007	Opinion Date 7/6/2007	Date Audit Report Submitted to State 7/11/2007	

We affirm that:

We are certified public accountants licensed to practice in Michigan.

We further affirm the following material, "no" responses have been disclosed in the financial statements, including the notes, or in the Management Letter (report of comments and recommendations).

Check each applicable box below. (See instructions for further detail.)

1. ☒ ☐ All required component units/funds/agencies of the local unit are included in the financial statements and/or disclosed in the reporting entity notes to the financial statements as necessary.
2. ☐ ☒ There are no accumulated deficits in one or more of this unit's unreserved fund balances/unrestricted net assets (P.A. 275 of 1980) or the local unit has not exceeded its budget for expenditures.
3. ☒ ☐ The local unit is in compliance with the Uniform Chart of Accounts issued by the Department of Treasury.
4. ☒ ☐ The local unit has adopted a budget for all required funds.
5. ☒ ☐ A public hearing on the budget was held in accordance with State statute.
6. ☒ ☐ The local unit has not violated the Municipal Finance Act, an order issued under the Emergency Municipal Loan Act, or other guidance as issued by the Local Audit and Finance Division.
7. ☒ ☐ The local unit has not been delinquent in distributing tax revenues that were collected for another taxing unit.
8. ☐ ☒ The local unit only holds deposits/investments that comply with statutory requirements.
9. ☒ ☐ The local unit has no illegal or unauthorized expenditures that came to our attention as defined in the *Bulletin for Audits of Local Units of Government in Michigan*, as revised (see Appendix H of Bulletin).
10. ☒ ☐ There are no indications of defalcation, fraud or embezzlement, which came to our attention during the course of our audit that have not been previously communicated to the Local Audit and Finance Division (LAFD). If there is such activity that has not been communicated, please submit a separate report under separate cover.
11. ☐ ☒ The local unit is free of repeated comments from previous years.
12. ☒ ☐ The audit opinion is UNQUALIFIED.
13. ☒ ☐ The local unit has complied with GASB 34 or GASB 34 as modified by MCGAA Statement #7 and other generally accepted accounting principles (GAAP).
14. ☒ ☐ The board or council approves all invoices prior to payment as required by charter or statute.
15. ☒ ☐ To our knowledge, bank reconciliations that were reviewed were performed timely.

If a local unit of government (authorities and commissions included) is operating within the boundaries of the audited entity and is not included in this or any other audit report, nor do they obtain a stand-alone audit, please enclose the name(s), address(es), and a description(s) of the authority and/or commission.

I, the undersigned, certify that this statement is complete and accurate in all respects.

INDEPENDENT AUDITOR'S REPORT

Members of the Township Board
Township of Westphalia
Westphalia, Michigan

We have audited the accompanying financial statements of the governmental activities and each major fund of the Township of Westphalia, Michigan as of and for the year ended March 31, 2007, which collectively comprise the Township's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the Township of Westphalia's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the governmental activities and each major fund of the Township of Westphalia, Michigan as of March 31, 2007, and the respective changes in financial position, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

The Township has not presented a management's discussion and analysis (MD&A), which would be an analysis of the financial performance for the year. The Governmental Accounting Standards Board has determined that the MD&A is necessary to supplement, although not required to be part of the basic financial statements.

See accompanying notes to financial statements.

Township of Westphalia

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

Year Ended March 31, 2007

Net change in fund balances - total governmental funds \$ 57,121

Amounts reported for governmental activities in the statement of activities are different because:

Capital outlays are reported as expenditures in governmental funds. However, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:

Capital outlay	\$ 13,500	
Depreciation expense	<u>(27,019)</u>	
Excess of depreciation expense over capital outlay		<u>(13,519)</u>

Change in net assets of governmental activities \$ 43,602

See accompanying notes to financial statements.

Township of Westphalia

NOTES TO FINANCIAL STATEMENTS

March 31, 2007

NOTE A: DESCRIPTION OF TOWNSHIP AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Westphalia Township, Michigan was organized as a Township under provisions of the constitution and general law of the State of Michigan. The Township is one of sixteen (16) townships in Clinton County. The Township operates under an elected Township Board which consists of a Supervisor, Clerk, Treasurer, and two trustees, and provides services to its residents in many areas including fire protection, roads, and planning.

1. Reporting Entity

As required by accounting principles generally accepted in the United States of America; GASB Statement No. 14, *The Financial Reporting Entity* (as amended by GASB Statement No. 39); and *Statement on Michigan Governmental Accounting and Auditing No. 5*, these financial statements present all financial activities of the Township of Westphalia (primary government). The Township has no activities that would be classified as component units.

The inclusion of the activities of various agencies is based on the manifestation of oversight criteria, relying on such guidelines as the selection of the governing authority, the designation of management, the ability to exert significant influence on operations, and the accountability for fiscal matters. The accountability for fiscal matters considers the possession of the budgetary authority, the responsibility for surplus or deficit, the controlling of fiscal management, and the revenue characteristics, whether a levy or a charge. Consideration is also given to the scope of public service. The scope of public service considers whether the activity is for the benefit of the reporting entity and/or its residents and is within the geographic boundaries of the reporting entity and generally available to its citizens.

Based upon the application of these criteria, the financial statements of the Township of Westphalia contain all of the funds controlled by the Township Board.

2. Basis of Presentation

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The statement of net assets and the statement of activities (the government-wide statements) present information for the primary government as a whole. For the most part, interfund activity has been eliminated in the preparation of these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The Township does not have any activities that would be considered to be business-type activities.

The statement of activities presents the direct functional expenses of the primary government and the program revenues that support them. Direct expenses are specifically associated with a service, program, or department and are therefore clearly identifiable to a particular function. Program revenues are associated with specific functions and are made up of charges to recipients of goods or services. Revenues that are not required to be presented as program revenues are general revenues. This includes all taxes, interest, and unrestricted State revenue sharing payments and other general revenues and shows how governmental functions are either self-financing or supported by general revenues.

FUND FINANCIAL STATEMENTS

The fund financial statements present the Township's individual major funds. Major individual governmental funds are reported as separate columns in the fund financial statements. Both of the Township's funds were considered major for the fiscal year ended March 31, 2007.

The major funds of the Township are:

- a. The General Fund is the Township's primary operating fund. It accounts for all financial resources of the general government except for those that are required to be accounted for in another fund.
- b. The Fire Fund is used to account for the operations of the fire department.

NOTES TO FINANCIAL STATEMENTS

March 31, 2007

NOTE A: DESCRIPTION OF TOWNSHIP AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

3. Measurement Focus

The government-wide financial statements are presented using the economic resources measurement focus, similar to that used by business enterprises or not-for-profit organizations. Because another measurement focus is used in the governmental fund financial statements, reconciliations to the government-wide statements are provided that explain the differences in detail.

All governmental funds are presented using the current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets.

4. Basis of Accounting

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made regardless of the measurement focus applied.

All governmental and similar trust funds are accounted for using the modified accrual basis of accounting. Under this method, revenues are recognized when they become susceptible to accrual (when they become both "measurable" and "available to finance expenditures of the current period"). The length of time used for "available" for purposes of revenue recognition in the governmental fund financial statements is 60 days. Revenues that are considered measurable but not available are recorded as a receivable and deferred revenue. Significant revenues susceptible to accrual are property taxes. Expenditures are generally recognized under the modified accrual basis of accounting when the related fund liability is incurred, except for interest on long-term debt which is recorded when due.

5. Budgets and Budgetary Accounting

The General and Special Revenue Fund budgets shown in the required supplementary information to the financial statements were prepared on a basis not substantially different than the basis used to reflect actual results.

The Township follows these procedures in establishing the budgetary data reflected in the financial statements:

- a. Prior to April 1, the budget is legally adopted on a departmental (activity) level through passage of a Board resolution. After the budget is adopted, any transfers of budgeted amounts between activities or any revisions that alter the total expenditures of the fund or activity must be approved by the Township Board.
- b. Formal budgetary integration is employed as a management control device during the year.
- c. The Township does not employ encumbrance accounting as an extension of formal budgetary integration. Appropriations unused at March 31 are not carried forward to the following fiscal year.
- d. Budgeted amounts are reported as originally adopted or amended by the Township Board during the year. The amendments to the originally adopted budgets were not material.

6. Cash and Investments

Cash consists of saving and checking accounts. Investments consist of certificates of deposit with original maturities of greater than 90 days.

NOTES TO FINANCIAL STATEMENTS

March 31, 2007

NOTE A: DESCRIPTION OF TOWNSHIP AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

7. Property Tax

The Township of Westphalia bills and collects both its own property tax levy and the tax levy for other governmental units. The Township's property tax revenue recognition policy and related tax calendar disclosures are highlighted in the following paragraph:

Property taxes are levied twice per year. A summer tax is levied on July 1 and a winter tax is levied on December 1. The tax levies are payable through September 30 and February 28, respectively. All taxes not paid by their due dates are deemed delinquent. Delinquent real property taxes are turned over to the Clinton County Treasurer on March 1 of the year following the levy. The Clinton County Treasurer remits payment to all taxing units on all delinquent real property taxes. Delinquent personal property taxes are retained by the Township for subsequent collection. Property taxes are recognized as revenues in the period for which they are levied.

The Township is permitted to levy up to \$1 per \$1,000 of assessed valuation for general governmental services and additional amounts for fire operations. For the year ended March 31, 2007 the Township levied .9948 and 1.4922 mills per \$1,000 of assessed valuation for general governmental services and fire operations respectively. The total taxable value for the 2006 levy for property within the Township was \$64,715,804.

8. Capital Assets

Capital assets include buildings and improvements, furniture and equipment, and vehicles and are recorded (net of accumulated depreciation, if applicable) in the government-wide financial statements under the governmental activities. Capital assets are those with an initial individual cost of \$1,000 or more and an estimated useful life of more than one year. Capital assets are not recorded in the governmental funds. Instead, capital acquisition and construction are reflected as expenditures in governmental funds, and the related assets are reported in the government-wide financial statements. All purchased capital assets are valued at cost where historical records are available and at an estimated historical cost where no historical records exist. Donated capital assets are valued at their estimated fair market value on the date received.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Depreciation is computed using the straight-line method over the following useful lives:

Furniture and equipment	5 - 10 years
Buildings and improvements	40 - 50 years
Vehicles	15 years

9. Comparative Data

Comparative data for the prior year has not been presented in each of the accompanying financial statements since their inclusion would make the statements unduly complex and difficult to read.

NOTE B: CASH AND INVESTMENTS

In accordance with Michigan Compiled Laws, the Township is authorized to invest in the following investment vehicles:

1. Bonds, securities, and other obligations of the United States or any agency or instrumentality of the United States.

NOTES TO FINANCIAL STATEMENTS

March 31, 2007

NOTE B: CASH AND INVESTMENTS - CONTINUED

2. Certificates of deposit, savings accounts, deposit accounts, or depository receipts of a State or nationally chartered bank or a State or Federally chartered savings and loan association, savings bank, or credit union whose deposits are insured by an agency of the United States government and which maintains a principal office or branch office located in this State under the laws of the State or the United States, but only if the bank, savings and loan association, savings bank, or credit union is eligible to be a depository of surplus funds belonging to the State under Section 5 or 6 of Act No. 105 of the Public Acts of 1855, as amended, being Section 21.145 and 21.146 of the Michigan Compiled Laws.
3. Commercial paper rated at the time of purchase within the three (3) highest classifications established by not less than two (2) standard rating services and which matures not more than 270 days after the date of purchase.
4. The United States government or federal agency obligations repurchase agreements.
5. Bankers acceptances of United States banks.
6. Mutual funds composed of investment vehicles which are legal for direct investment by local units of government in Michigan.

Federal Deposit Insurance Corporation (FDIC) regulations provide that deposits of governmental units are to be separately insured for the amount of \$100,000 for deposits in an insured bank for savings deposits and \$100,000 for demand deposits. Furthermore, if specific deposits are regulated by statute or bond indenture, these specific deposits are to be separately insured for the amount of \$100,000. Michigan Compiled Laws allow for collateralization of government deposits if the assets for pledging are acceptable to the State Treasurer under Section 3 of 1855 PA 105, MCL 21.143, to secure deposits of State surplus funds, securities, issued by the Federal Loan Mortgage Corporation, Federal National Mortgage Association, or Government National Mortgage Association.

The Township's cash and investments at March 31, 2007, are composed of the following:

	<u>Carrying Amount</u>	<u>Bank Balance</u>
Cash		
Checking accounts	\$ 283,875	\$ 294,154
Savings accounts	744	744
Certificates of deposit	<u>443,472</u>	<u>437,771</u>
	<u>\$ 728,091</u>	<u>\$ 732,669</u>

Deposits of the Township are at federally insured banks located in the State of Michigan with all accounts maintained in the name of the Township. As of March 31, 2006, the Township accounts were insured by the FDIC for \$523,050, and the amount of \$209,619 was uninsured.

Due to significantly higher cash flows at certain periods during the year, the amount the Township held as cash increased significantly. As a result, the amount of uninsured and uncollateralized cash was substantially higher at these peak periods than at year end.

Credit risk

State law limits investments in certain types of investments to a prime or better rating issued by nationally recognized statistical rating organizations (NRSRO's). As of March 31, 2007, the Township did not have any investments that would be subject to rating.

Township of Westphalia
NOTES TO FINANCIAL STATEMENTS

March 31, 2007

NOTE B: CASH AND INVESTMENTS - CONTINUED

Interest rate risk

The Township will minimize interest rate risk, which is the risk that the market value of securities in the portfolio will fall due to changes in market interest rates, by designing its portfolio with the objective of obtaining a rate of return throughout the budgetary and economic cycles, taking into account the investment risk constraints and the cash flow characteristics of the portfolio.

Concentration of credit risk

The Township will minimize concentration of credit risk, which is the risk of loss attributed to the magnitude of the Township's investment in a single issuer, by designing its portfolio so that the investments will be diversified by security type and institution in order that potential losses on individual securities do not exceed the income generated from the remainder of the portfolio.

The cash and investments referred to above have been reported in either the cash or investments captions on the statement of net assets and the balance sheet based upon criteria disclosed in Note A. The following summarizes the categorization of these amounts as of March 31, 2007:

	<u>Primary Government</u>
Cash	\$ 284,619
Investments	<u>443,472</u>
	<u>\$ 728,091</u>

NOTE C: INTERFUND RECEIVABLES AND PAYABLES

The following schedule details interfund receivables and payables at March 31, 2007:

Due to General Fund from:	
Fire Fund	<u>\$ 3,459</u>

Amounts appearing as interfund payables and receivables arise from two types of transactions. One type of transaction is where a fund will pay for a good or service that at least a portion of the benefit belongs to another fund. The second type of transaction is where one fund provides a good or service to another fund. Balances at the end of the year are for transfers that have not cleared as of the balance sheet date.

NOTE D: CAPITAL ASSETS

Capital asset activity for the year ended March 31, 2007, was as follows:

	<u>Balance April 1, 2006</u>	<u>Additions</u>	<u>Deletions</u>	<u>Balance March 31, 2007</u>
Governmental Activities				
Buildings and improvements	\$ 84,762	\$ -	\$ -	\$ 84,762
Vehicles	285,800	-	-	285,800
Furniture and equipment	<u>113,550</u>	<u>13,500</u>	<u>-</u>	<u>127,050</u>
Subtotal	484,112	13,500	-0-	497,612

Township of Westphalia
NOTES TO FINANCIAL STATEMENTS
March 31, 2007

Depreciation expense was charged to the following governmental activities:

General government	\$ 2,898
Public safety	24,121
Total	\$ 27,019

NOTE E: RETIREMENT PLAN

The Township of Westphalia is the sponsor of a retirement plan for the sole benefit of its employees. The Township of Westphalia Pension Plan is a money purchase defined contribution pension benefit plan. Contributions are based on an employee's annual calendar year compensation. During the year ended March 31, 2007, the Township of Westphalia made contributions for all participating employees of 6.84% per employee, with the participating employees required to contribute 7% each.

All Township employees are eligible to participate in the plan. All eligible employees, except Board of Review members, participate in the plan. The contributions fund the premiums for Individual Deferred Annuity policies with the Travelers Insurance Company through Municipal Retirement Systems, Inc.

For the year ended March 31, 2007, the Township of Westphalia had a total payroll of \$79,234. The Township of Westphalia Retirement Plan covered payroll for the period ended March 31, 2007 of \$78,582. The Township of Westphalia made contributions for the 2006 plan year to the retirement plan in the amount of \$5,372.

NOTE F: RISK MANAGEMENT

The Township is exposed to various risks of loss including accidental death, dismemberment, disability; medical expense benefit; errors and omissions; blanket accident; firefighter accident; and workers' compensation for which the Township carries commercial insurance.

The Township also participates in a pool, the Michigan Township Participating Plan, with other municipalities for property, liability, wrongful acts, auto, crime, in-land marine, and bonding losses. The pool is organized under Public Act 138 of 1982, as amended. In the event the pool's claims and expenses for a policy year exceed the total normal annual premiums for said years, all members of the specific pool's policy year may be subject to special assessment to make up the deficiency. The Township has not been informed of any special assessments being required.

Township of Westphalia

NOTES TO FINANCIAL STATEMENTS

March 31, 2007

NOTE G: EXCESS OF EXPENDITURES OVER APPROPRIATIONS

Michigan Public Act 621 of 1978, Sections 18 and 19, as amended, provides that a local governmental unit not incur expenditures in excess of the amounts appropriated.

In the required supplementary information to the financial statements, the Township's budgeted expenditures in the General and major Special Revenue Fund have been shown at the functional classification level. The approved budgets of the Township have been adopted at the activity level for the General Fund and the fund level for the Special Revenue Funds.

During the year ended March 31, 2007, the Township incurred expenditures in the General Fund in excess of the amounts appropriated as follows:

	<u>Amounts Appropriated</u>	<u>Amounts Expended</u>	<u>Variance</u>
General Fund			
General government			
Other	\$ 29,000	\$ 34,090	\$ 5,090

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE
AND OTHER MATTERS BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS**

To the Board of Trustees
Township of Westphalia
Westphalia, Michigan

We have audited the accompanying financial statements of the governmental activities and each major fund of the Township of Westphalia as of and for the year ended March 31, 2007, which collectively comprise the Township's basic financial statements, and have issued our report thereon dated July 6, 2007. We conducted our audit in accordance with auditing standards generally accepted in the United States of America.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Township of Westphalia's internal control over financial reporting (internal control) as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly we do not express an opinion on the effectiveness of the Township's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. In addition, because of inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls. However, as discussed below, we identified certain deficiencies in internal control that we consider to be significant deficiencies.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or a combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control. We consider the following deficiencies to be significant deficiencies in internal control:

PREPARATION OF FINANCIAL STATEMENTS

During the course of our audit, it was noted employees and/or management have limited technical expertise to prepare the Township's financial statements and notes to the financial statements in accordance with accounting principles generally accepted in the United States of America. The preparation of the Township's financial statements and notes in accordance with accounting principles generally accepted in the United States of America is the responsibility of management. Management is responsible for establishing, maintaining, and monitoring internal controls, and for the fair presentation in the financial statements of financial position, results of operations, and cash flows, including the notes to financial statements, in conformity with accounting principles generally accepted in the United States of America. The auditor cannot be a part of the internal controls.

We recommend the Township consider obtaining the proper training for the appropriate staff members to assure that they are able to fully understand the requirements of preparing the financial statements and so that they may take responsibility for the statements and the appropriate disclosures.

AGED RECEIVABLES

During the course of our audit it was noted that there were amounts included in accounts receivable that had been recorded as receivable for a period of greater than one year. Recognition of a receivable amount that is most likely uncollectible does not give an accurate portrayal of asset totals.

We recommend that the Township write off receivables that have been determined to be uncollectible as bad debt expense.

UNDEPOSITED CHECKS

During the course of our audit, we discovered a check dated July 28, 2006, that was made payable to the Township from Grand Ledge Public Schools. As of the last day of fieldwork, this check had not been deposited with the bank.

We recommend that the Township deposit all checks made payable to them in a timely manner.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in the internal control that might be significant deficiencies and, accordingly, would not necessarily disclose all significant deficiencies that are also considered to be material weaknesses. We consider the deficiencies described below to be material weaknesses in internal control over financial reporting.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Township's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed the following instance of noncompliance:

INVESTMENTS HELD AT BANKS OUTSIDE THE STATE OF MICHIGAN

During the course of our audit, we noted the Township held investments at banks that do not have branches in the State of Michigan. This issue was noted and reported in our audit comments last year.

In accordance with Michigan Compiled Law, the Township is authorized to invest in certificates of deposit, savings accounts, deposit accounts, or depository receipts of a State or nationally chartered bank or a State or Federally chartered savings and loan association, savings bank, or credit union whose deposits are insured by an agency of the United States government and which maintains a principal office or branch office located in this State under the laws of the State or the United States, but only if the bank, savings and loan association, savings bank, or credit union is eligible to be a depository of surplus funds belonging to the State under Section 5 or 6 of Act No. 105 of the Public Acts of 1855, as amended, being Section 21.145 and 21.146 of the Michigan Compiled Laws.

We recommend the Township sell the investments when the investments mature and reinvest at banks that maintain an office in the State of Michigan.

This report is intended solely for the information and use of management and Board of Trustees of the Township of Westphalia, others within the organization, and applicable departments of the State of Michigan and is not intended to be and should not be used by anyone other than these specified parties.
